HOW WILLOW WORKS

Like a food translator.

Inspired by the clarity-first product evaluation approach described in your Willow specification, with a playful visual language.

01

Scan

Photograph the ingredient or nutrition label. No barcode required.

SNAP!

02

Aa

Decode

OCR extracts and normalizes complex ingredient names and additive codes.

DECODE

Understand

See a simple 0–100 score and plain language health signals.

BUILT FOR REAL INDIA

LOCAL / UNBRANDED

Loose Namkeen

ESTIMATED, NOT EXACT

Salt **HIGH**

Oil risk **WATCH**

Additives **UNKNOWN**

Category-level profile for products without a printed ingredient label.

**NO
BARCODE?
NO PROBLEM.**

BUILT FOR REAL INDIA

Even local food can be understood.

Willow is designed for regional, local and unbranded foods that may not exist in international barcode databases.

Photo OCR

Read labels directly from package photos.

Category fallback

Provide an estimated profile when there is no printed ingredient list.

Healthier swaps

Suggest alternatives in the same food category and price band.

THE WILLOW SCORE

One number. More clarity.

Willow's specification uses a three-part framework: nutrition 60%, additives 30%, clean/organic 10%.

Nutritional Quality

60%

Calories, sugars, saturated fats, sodium, protein, fiber and whole grains.

Presence of Additives

30%

Preservatives, synthetic dyes, emulsifiers and E-numbers.

Clean / Organic Label

10%

Certified organic status and natural whole-food ingredients.

• 75–100 Excellent • 50–74 Good • 25–49 Mediocre • 0–24 High Risk

TRY THE WILLOW EXPERIENCE

Scan first. Buy smarter.

Upload a food label to preview the interaction. The current demo simulates the result; connect your OCR and scoring backend for live analysis.

INDEPENDENCE

No ads. No influence. No hidden agenda.

Willow's evaluation model is designed around objective consumer information and a transparent business model.

01

No brand influence

Brands cannot pay for favorable placement or scores.

INDEPENDENT

02

100% ad-free

No sponsored rankings or promotional priority.

NO AD

03

Private by design

Scan histories and watchlists stay confidential.

PRIVATE

04

Transparent model

Premium membership supports the product.

CLEAR

BETTER ALTERNATIVES

Don't just know.
Choose better.

When a product scores poorly, Willow can surface a cleaner swap from the same category and price band.

BEHIND THE SCORE

Playful outside.
Serious underneath.

BEHIND THE SCORE
